ABOUT US

SHEORAN INTERNATIONAL SCHOOL AN INITIATIVE BY JYOTI EDUCATIONAL SOCIETY

The Goddess Saraswati, the Book and The shield of Victory, stands for the school's belief that knowledge leads to enlightenment and prosperity.

Established in 2018, **Sheoran International School**, Greater Noida is a CBSE affiliated, progressive K-12 school. Within a short span School has been awarded with REX Karamveer Award, Best Emerging School of the Year. **Sheoran International School** has earned a reputation as one of NCR's high potential Senior Secondary School. **Sheoran International School** forges ahead with its vision of preparing students to encounter a rapidly changing world by equipping them with critical thinking skills, a global perspective and respect for core

values. To realise our vision and execute our mission, We have with us our Academic Partners, **Next Education India Pvt. Ltd**

We are committed to a unique learning approach and a 'Happy Learning' environment that helps children become lifelong learners. It is education for life that we aim for at SIS. The school is led and guided by able navigators of national and international repute.

The hallmark of **Sheoran International School** is the curriculum with Values, inculcating values in students that are designed to connect to real life and affect the lives of our students.

PLAY • LEARN • INNOVATE • EXPERIENCE

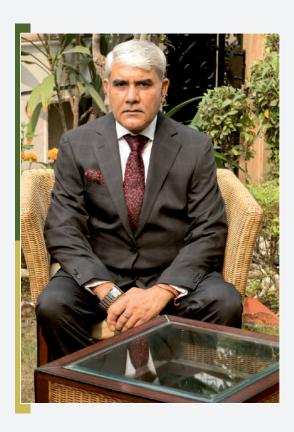

Jyoti Educational Society was founded in 2008 with the intent to provide education in rural areas and help kids aspiring to pursue education.

Sheoran International School was founded under the aegis of Jyoti Educational Society with an aim to make learning fun by embracing the unconventional way i.e. Play, Learn, Innovate and Experience.

A good school is where students can study in a stressfree environment and enjoy the freedom to ask thoughtprovoking questions.

Our motive at Sheoran is to generate curiosity among students, allow them to commit mistakes and then learn, favouring personalised learning over differentiated learning, thus eliciting the best in each child and making them lifelong learners, bubbling with self-confidence, with an intrinsic potential for global leadership.

"MESSAGE FROM OUR THINK TANKS"

CHAIRMAN'S MESSAGE

Uday Veer Singh

(Chairman Jyoti Educational Society)

We at **Sheoran International School** focus on total upliftment with adequate use of educational technologies, keeping in mind the motto "Service to the Nation First". Our experience in education promises to provide a joyous experience of learning where children excel and explore freely and independently in a stress-free environment. **Sheoran International School** shall burgeon into a multi disciplinary institution, offering various facilities to the students and parents to impart diverse skills, in tune with the requirements of the modern world.

Inclusive education has grown from the belief that education is a basic human right. All learners have a right to education, regardless of their individual characteristics or difficulties. Inclusive education initiatives often have a particular focus on those groups which, in the past, have been excluded from educational opportunities. Inclusive education is not only concerned with differently-abled students, or with finding an alternative to segregated special schooling. Inclusive education encourages policy makers and managers to look at the barriers within the education system, how they arise and how they can be removed.

Best wishes from school management team

EXECUTIVE DIRECTOR'S MESSAGE

Sushant Chaudhary

(Executive Director, Sheoran International School)

Greetings from Sheoran International School!

I take pleasure in welcoming you to **Sheoran International School** (SIS), a school committed to delivering quality education.

Right from its inception, **Sheoran International School** has striven to be reckoned as an institution of excellence in the NCR and a preferred destination for learning.

The infrastructure has been developed with the most modern equipment and designs. Provisions have also been made to upgrade the same to keep pace with the technological advancements.

The curriculum is structured to help develop students into responsible, global citizens, in a value-based environment. To facilitate this, our faculty ensures that quality teaching is imparted to the students.

As a parent, you can rest assured that the time spent in the school will be an enriching and fruitful experience for your child.

Is nurtured through a holistic curriculum that helps develop a child to face the challenges of the future.

Inculcates problem-solving and decision-making skills in an environment of self/group learning that is in tune with the 21st century.

Actively participates in all the events and activities of the school.

Receives equal opportunity to develop their full potential academically, socially and emotionally

PRINCIPAL'S MESSAGE

Aparna Sharma Principal

Sheoran International School

"Taking responsible decisions and having a problemsolving approach in an individual is the need of the hour."

Sheoran inculcates the basic idea of critical thinking among the students to make them able to analyze the situation, have a variety of ideas to solve it and make responsible decisions. This introduces novelty, self-directed problem solving, stepwise planning, which is effective in avoiding common pitfalls.

In short, Sheronians are the responsible international citizens in the making. They are made open to create, think, plan and deliver through various curricular, co-curricular and extracurricular activities, which make them broad-minded with more acceptance of differences of opinions, respectful, empathetic and logical all at the same time.

The best part is we have a positive outlook to look at life, which is revealed in our actions and words. Our students' reply to your question of "How are You" will be" Happy and Healthy." Similarly, they are self-motivated to take responsibility for themselves, friends and those who need them.

At Sheoran International School, we are proud to be the people who are in the role of molding the children into RESPONSIBLE INTERNATIONAL CITIZENS.

Meet Our Academic Partners

Beas Dev Ralhan,
Co-founder & Chief Executive Officer,
Next Education India Pvt. Ltd.

The vision of **Next Education** is to make quality education accessible to all learners across the country and equip them with essential 21st-century skills. We believe that this vision can be achieved only with the intervention of technology, specifically, technology-enabled educational products and solutions, that will effectively address the challenges prevailing in the current education scenario.

We feel honoured to partner with **Sheoran International School** to deliver the promise of nurturing and mentoring the young generation of the country. Through our technology-driven curriculum, we aim to ensure the holistic development of learners, which includes not just core academics but also important life skills.

With our technology-enabled curriculum, we are sure that **Sheoran International School** will set new standards in delivering quality education and effective instruction to its students, inspiring curiosity, imagination and creativity.

SHEORAN INTERNATIONAL SCHOOL GUIDING STATEMENTS

OUR VALUES AND ATTRIBUTES

Our Values and Attributes, which align with our Guiding statements, are integral in Creating a school culture and climate to realise our Educational Goals:

Determination

Compassion

Responsibility

Honesty

Commitment

Trust

Perseverance

Self Discipline

Integrity

Respect

Team work

Cleanliness

What makes **SIS**Truly Distinctive?

- Celebrates a culture of excellence in academics and the all round development of children
- Individualised attention to each child to cater to their diverse learning needs
- Talented, experienced and dedicated teachers with linguistic and cultural diversity
- Inclusive education, with a committed team of student care professionals
- Offers an integrated curriculum drawing upon the best of national and international curriculum
- Outstanding academic results, sports and co-curricular achievements
- Inculcation of Basic moral values among Students from an early age
- Upholds Indian culture and values, whilst fostering global citizenship
- A safe and secure learning environment, with focus on student wellbeing
- High-quality student leadership opportunities including exposure to leaders, innovators and iconic personalities from all walks of life

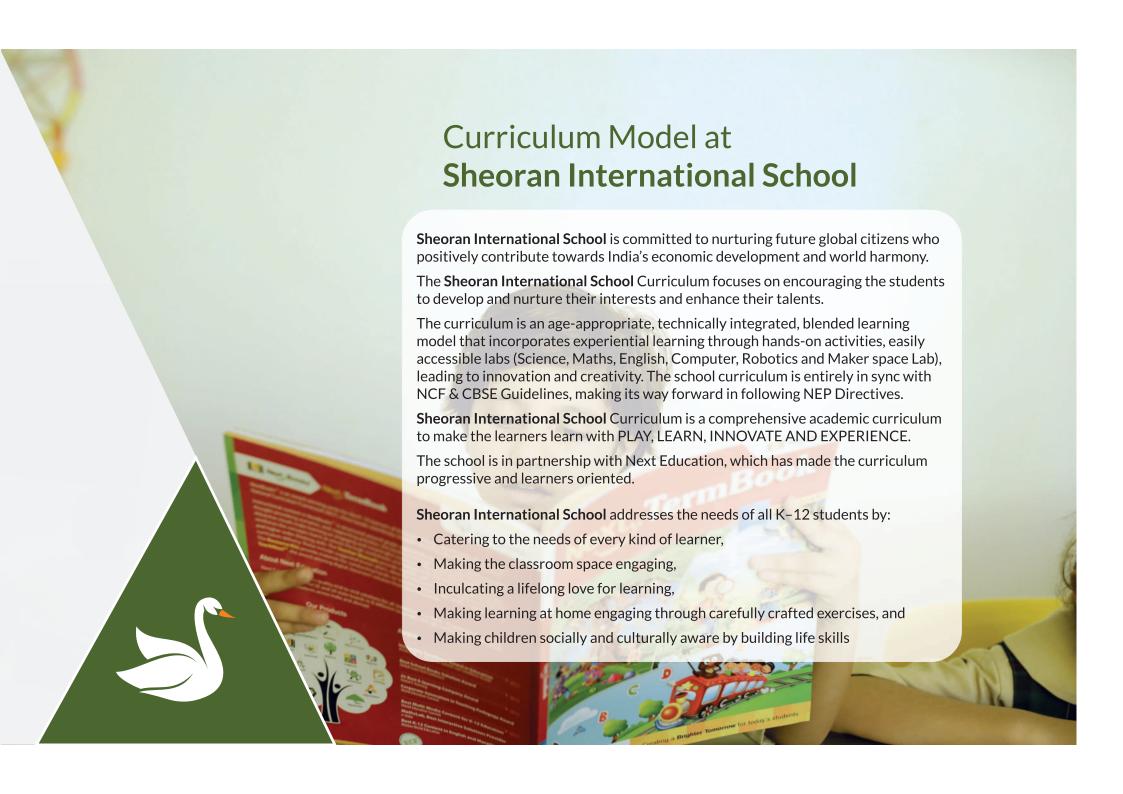

Academic Par Excellence

Academic Excellence is guaranteed at Sheoran International School through a series of innovative teaching & learning practices and a strong research base. The learning, unlearning and relearning process has been the hallmark of the school's journey in moving from good to great. Sheoran International School has integrated the Understanding by Design methodology in its teaching learning practices along with core values that encourage children towards developing 21st century skills. This gives young learners the advantage of a wider scope of skill Enhancement, while covering the essentials on each topic, and ensuring that they understand each concept thoroughly.

In the nut shell:

- Research based approach
- A unique pedagogy called "Understanding by Experiencing and Experimenting"
- High-end academic support services
- Reflective practices
- Teaching by Audio/Visual Aids
- Management tools integrated into teaching learning process
- Integration of technology to facilitate learning process
- Adoption of global practices like 21st century skills.

Kindergarten Programme (Pre Nursery, Nursery, KG)

The Kindergarten Programme at Sheoran International School inculcates in children the qualities of curiosity, exploration and discovery in a fun-filled, safe and happy learning environment. Every child is catered to with a lot of personalised attention. An individualised approach helps nurture a love of learning, develop social skills, and instil moral values. The emphasis is to build self-confidence and effective English communication skills in students. Teachers ensure this through the effective use of language and by encouraging children to express themselves freely. A well-balanced curriculum and theme-based instruction help young minds integrate their learning smoothly. The emphasis is on exploring, knowing, understanding and forming their own ideas. The principles of learning applied in Kindergarten include Holistic Development and Learning (Aesthetics and Creative Expression, Language and Literacy, Numeracy, Self and Social Awareness), Integrated Learning, Active Learning, Supportive Learning, Interactive Learning and Learning through Play.

The curriculum prepares children to transition smoothly to a more formal Primary curriculum. The **Kindergarten Programme** makes use of a range of individual and group activities to create a lively and positive learning environment. Games, songs, creative projects, story-telling, role-playing, drawing and painting help develop children's foundational skills in literacy and numeracy. They are encouraged to play, explore and discover through dance, music, art and craft. Singing, rhyming and reciting are employed in the Language Arts and the Phonics Programme. The use of manipulatives, pictures and symbols helps them identify relationships between sets and groups of things to be sorted, counted, shared and represented. Sporting activities help in strengthening coordination and motor skills and instil enthusiasm for sports. Picnics and field trips enhance students' understanding of their surroundings. Celebration of festivals sensitises them to multiple traditions and cultures.

Primary School (I to V)

The **Primary School Programme** encourages inquiry and exploration and develops children's competence in various skills - reading, writing, listening, speaking, problem-solving, observation, measurement and use of information and communications technology. The Primary School offers an exciting and creative learning environment, with an interdisciplinary approach towards Languages, Mathematics, Science and Social Studies, as individual and integrated subjects. **Sheoran International school** believes in Activity-based learning and to cater to this; we have age-appropriate labs right from Grade 1 onwards.

We have dedicated Maths Lab, Language Lab, English Lab and Computer Lab. Equal emphasis is given to individual, small group and whole-group activities to improve children's ability by working on their varied ability levels. Physical Education develops sports skills and creates health awareness. Exposure to the team and individual sports encourage a sense of team spirit, as well as individual effort and accomplishment. The wide range of curricular and co-curricular opportunities offered help instil in children confidence and discipline. The focus on developing communication skills helps them appreciate the value of education; it makes them realise that such skills are essential for expressing themselves.

Students' engagement in community service activities from Class I onwards sensitises them to the needs of the community and the world around them. They visit old-age shelters and orphanages, which make them understand the challenging situations of others and sensitise them to support them. **Sheoran International School** is also associated with Robinhood Army.

Middle School (VI to VIII)

The Middle School Programme is structured to meet children's varied intellectual and developmental needs and builds on concepts and skills learnt in Primary School. It ensures progression and continuity across various stages of learning in the School and incorporates continuous evaluation and review of children's performance. The main aims of the Programme are developing skills related to writing, reading, reflecting, critical thinking, public speaking, fostering initiative among students and a desire to acquire knowledge. PSHE (Personal, Social, and Health Education) helps students address their age-specific interests and concerns, builds awareness, and promotes compassionate and ethical conduct.

Projects are planned to integrate knowledge and skills acquired by students in multiple subjects and serve as a concrete step toward developing interdisciplinary approaches in later years. Field trips and excursions aid in developing social skills and broadening their understanding of the world. Projects, presentations and group activities are more formal and research-based. Inter-house cultural and sports competitions encourage healthy competition and team spirit. Students begin to contribute to class assemblies, concerts and drama productions and take up roles of responsibility. Community Service is offered through school-initiated programmes and partnerships with NGOs.

CBSE (IX to XII)

The CBSE curriculum from IX to XII aims to provide the modern and best quality education to the students. Sheoran International School is one of the town's most reliable and recognised CBSE board high schools. Sheoran International School makes students' learning process simple and future-ready. With our informative educational pattern, we add to the personality and academic growth. The CBSE curriculum for students in classes IXth onwards follows a holistic approach. The curriculum's rigours are matched by an extraordinary skill-based education that gives equal leverage to developing and gaining talent as well as instilling values like kindness and kinship. This method allows kids to pursue their passions while enhancing academic, physical, and mental growth.

The curriculum prepares students to excel in competitive exams while facilitating their entry into some of the world's finest universities.

Hybrid Module of Learning

Sheoran International School provides students with a hybrid learning module, wherein teachers take online and offline classes simultaneously for the students. Some students attend the classes in person, while some attend virtually. This way, we ensure that even if a child is absent, he/she does not miss his/her academics.

We aim to facilitate a modern, interactive and engaging learning experience for students.

Learning Beyond Classroom

At **Sheoran**, we believe that learning should not be limited to books or only to a classroom. For holistic development of learners, it is important that they interact and build a rapport with their peers and learn important social skills. Participating in various games, competitions and events enhances collaborative and cognitive skills of students.

The vast range of extracurricular activities at **Sheoran International School** offers students an opportunity to form relationships, foster learning and encourage self-development. We teach our students the following important skills:

- Time management and prioritisation
- Setting goals
- Exploring diverse interests
- · Building self-esteem
- Contributing to the community
- Working collaboratively

Science involves kinesthetic learning and teaching. In order to understand its concepts, students must look beyond conventional classroom teaching and learning from books. At **Sheoran International School**, the most modern labs ensure that the kids actually observe the process and

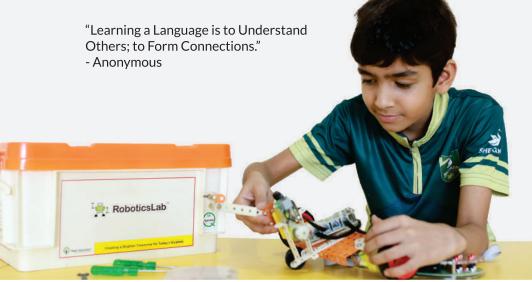

understand the relationship between action and reaction, using hands on learning methods to apply the knowledge they have attained in the classroom. Anatomy models, Physics and Chemistry kits, for instance, make it easy to understand the otherwise complex theories of science.

In the technology-saturated world that we live in, it is extremely important to prepare students with technological skills. This is possible only when we impart the necessary technological knowledge and skills to them so that they can understand and thrive in a world where technology is ubiquitous.

Teaching robotics is one of the most effective ways to inculcate innovative thinking in young children. It is considered one of the most important subjects in the 21st-century.

Robotics is also an entry point to learn coding, which is one of the most sought-after skills of the 21st century. In today's education, knowledge of technology is essential and should be an important part of the curriculum. Understanding this paradigm, Next Education has developed a comprehensive Robotics Lab that goes beyond the basics of Robotics, opening the door to a world of exciting opportunities.

COMPUTER LAB

Technology and education today go hand in hand, and this makes it easier for students and teachers to stay updated. This helps teachers improve their teaching and lesson planning skills too. The well-equipped modern computer lab at Sheoran International School aims at making the learning process a lot more simple and efficient, giving students access to tools and methods of communication unavailable offline. This helps the students be more involved in their lessons and work. Teaching students to be technologically advanced helps them prepare for any number of possible careers.

"Man is still the most extraordinary computer of all."
- John F. Kennedy

Learning English the Easy Way!

Today, English is the language that is predominantly used in business, media, art and academics. Hence, it is very important to understand and assimilate the English language as a medium of communication.

English language skills are indispensable for professional success, so it is critical not only to achieve communicative proficiency but also to learn to think in English. To address the challenges faced by students in learning English, Next Education has developed the English Lab, keeping the Indian learner in mind.

Discover, Experience, Explore

Science education today usually does not focus on practical application, but instead, relies heavily only on theoretical instruction, expecting students to remember concepts word by word. In order to thrive in the competitive and tech-savvy world, we need a science education that is based on a practice-based approach.

We need to remember that without practical application, science education is mostly redundant. To address this challenge, Next Education has developed the Science Lab that aids scientific thinking in students, covering concepts of Physics, Chemistry, Biology and EVS.

Mathematics is an important subject, not just in school but throughout life. The abstract nature of mathematical concepts makes it difficult for students to relate to it or understand it.

Rote learning will definitely not help students in learning this subject. Moreover, expectations from parents and the inability to cope with the pace of instruction in class often generates stress in students.

For mathematical education to be effective, we need a method of instruction that is based on real-life scenarios with scope for practical application. It needs to have an interdisciplinary and hands-on approach to be more effective.

Maths Lab addresses all these challenges and the modules are designed in such a way that it removes the fear of mathematics in students.

Maker Space Lab

Next. Makerspace

Developing life skills is a crucial part of a child's education. Therefore, we have always striven to develop 21st century skills in our students. Now, we are bouncing to the next level by introducing the Next Makerspace Curriculum.

Being the first school maker curriculum in India, Next Makerspace is an ideal one-stop solution that would enable students to develop and master the 21st century skills. The learning outcomes of this curriculum are exact: the knowledge, skills and processes are developmentally appropriate, yet it is suitable to the Makerspace philosophy of an open-ended learning.

Here, students would bring to life their creative solutions to defined problems by using the modern technology like 3D printing, in addition to the traditional art and craft skills. In this process, students would be able to imbibe the designthinking process of problem solving, while expressing creativity in a tangible/real form. Furthermore, this would provide them a platform to communicate their ideas with their peers and collaborate with a diverse set of people.

INCLUSIVE EDUCATION

The school is specially committed to children with special needs. We acknowledge every child's right to education and believe that studying in a school not only helps the intellectual development of the child but also helps him/her to develop their social and communication skills while nurturing their self-esteem and self-worth. It develops their social and communication skills, hones their abilities of interaction, and nurtures their self-esteem and self-worth. It enables students to participate in the life and work of mainstream institutions to the best of their abilities, irrespective of their special needs.

We look forward to include children with mild to moderate learning disabilities with or without associated /other difficulties. We are committed to providing a curriculum that is meaningful and purposeful and which will lead to their integration into society and the mainstream workforce.

The SEN Department assists students access the regular curriculum in separate settings. Students are supported through remediation or reinforcement classes, modification and adaptation of a regular curriculum and through partial integration leading to full integration wherever possible. Further accommodations such as extra time and allotment of scribes are incorporated wherever necessary, keeping in mind the rules of the examination board.

The multi-disciplinary team of Special Educators, Speech & Language Pathologists, Occupational/Physiotherapists and Counselors/Family Therapists works closely with the mainstream teaching faculty. It also draws on the experience of visiting professionals such as Child Psychologists & Child and Adolescent Psychiatrists.

Special attention is given to the children in the areas of Physical Education, Art & Craft, Computers and Performing Arts. Emphasis is also given to areas of Language & Communication Skills, Social Skills, Life Skills and Robotics.

Recognising the fact that all children have different strengths and abilities, we aim to provide a diverse and dynamic curriculum to help each child achieve his /her potential.

OUR VIRTUAL JOURNEY 2021-2022

SPORTZ VILLAGE

Sports as a hobby encourages participation and serve as a good platform for people to have fulfilling experiences. Sports is essential to a person's holistic growth since they enhance physical and mental well-being. We have partnered with Sportz Village, the world's largest sports youth platform. Established in 2003, Sportz Village's philosophy is based on improving children's health and fitness and getting everyone to experience the magic of sports.

This partnership allows parents get involved in their ward's sports activities at a deeper level. You can:

get to know what their child has learned in the sports classes.

view skill and fitness reports with detailed information.

stay updated about the events and other competitions conducted at the school.

Enhance your child's general knowledge with daily informative messages.

Get health tips from nutrition and sports blogs.

Help your child improve in sports with the help of training videos.

Hobby Clubs

Hobby clubs are excellent ways for students to explore their passion outside their regular studies and learn as part of a community bound together by shared interests. Our school has partnered with some of the leading studios and vendors to set up hobby clubs. Each student can select two programmes from the list according to their interest and hone their skills.

HOBBY

CLUBS

TechStep

This programme includes web and app development and robotics that helps students to achieve digital fluency.

Art is important for the 360-degree development of students. Creative Hearts helps learn concepts through arts and enhance creativity.

Digital Animation: Create animated videos and games using various

tools and software

Public Speaking : Create well-researched speeches and structure

arguments through interactive speaking activities

Photography : Discover the art of capturing stunning pictures with

different camera techniques

British School of Foreign Language

This club lets children learn French, Spanish, German and many more foreign languages with a focus on IELTS exams

Kaabil Kids is a club that allows students to learn chess online from professional trainers and grandmasters on an online chess learning platform

This is an international dramatics programme to learn acting, boost confidence and improve communication skills

Infrastructure at **Sheoran International School**

We have the best Infrastructure and Facilities which is required by our students for their holistic development:

- Unique open school design
- Smart and Digital Air conditioned Classes
- Age appropriate labs(English Lab, Maths Lab, science lab, computer lab, robotics lab, maker space lab and composite lab)
- A modern Centre for Performing Arts
- Special Activity rooms for Art, Music (Western & Indian), Dance, Drama and Yoga
- Purpose-built play areas for pre-primary and primary
- Sporting facilities: Basketball, Volleyball, skating, Table-tennis, Badminton, Cricket and Judo
- · AstroTurf football field

- Health wing with qualified nurse at the school
- Learning Centre with 38,200 books, 40
 journals and magazines, 1600 multimedia
 (CD/ DVD/Audio Cassettes), and 16 online
 databases
- Wi-Fi enabled campus
- Cafeteria: Ultra-modern kitchen with healthy and nutritious food.
- Energy conservation initiatives like LED lighting, air-conditioning timetable, solarpowered water heaters; water conservation efforts; waste-paper management
- Safe campus with modern security systems(CCTV Camera, GPS Enabled Transport, Evacuation Drills)

Various Learning Studios at Sheoran International School

Art studio:

Art plays an integral role in ensuring the school is a beautiful learning environment. Our school has three art studios, one for the Early Years, one for the Upper Primary and one for the Senior school. The spaces are Reggioinspired and very inviting. They provide opportunities for the facilitator to introduce problem solving techniques, which help the students to see the world in new ways, and provide access to creative ways of knowing.

Dance Studio:

The Learners experience the beauty of Art form called "Dance", they explore various form of dance and experience those. Not only this, to affirm the self reflective learning approach, the dance studio has mirrors installed, which instills confidence, self competition and self improvement.

Musical Notes:

Music is an essential part of our curriculum that aims to balance the whole spectrum of the child's intelligence as it involves learning in the major domains of knowledge, skills, attitudes and feelings, and the senses. This is where students explore and start to find their own musical inclinations as they play on wind, string and percussion instruments. Teachers here are selected with good experience to encourage, identify and upskill students who have a natural flair for music and develop in all, the ear to good music.

In-House Amenities

Day Care

Sheoran International School is a one step solution for all your child's needs. We have a safe, secure and structured Day care for Our Sheoranians. The sole purpose of Day care is to provide a comfortable environment for the kids that enhances their learning capability without any hindrance.

Infirmary

At **Sheoran International School**, we believe in providing comprehensive care for the students and for that we have a well set up infirmary in place wherein we have a well qualified Nurse from Yatharth Hospital, Greater Noida. In an emergency during school hours first aid is administered to the students and a call is made to the parents informing them of the same. In case of a major injury or emergency, the child is rushed to the nearest hospital, and the parents are called for the same.

Activity Room

Activity room provides a stimulating environment for children and aids in spontaneous learning. The area is designed keeping in mind Indo-Canadian teaching methodologies where students can explore beyond classrooms and have time to become creative thinkers. Activity room gives a real time exposure to children to express their feelings and learn to listen to others. The core idea of this activity area is to engage the kids by providing them an environment that induces joy, happiness and creativity. The interior of this room is designed keeping the little ones in mind. Their inquisitive eyes get the feel of things fresh and attractive. Children are introduced to fundamental learning that is appealing and more recreational in future.

Cafeteria

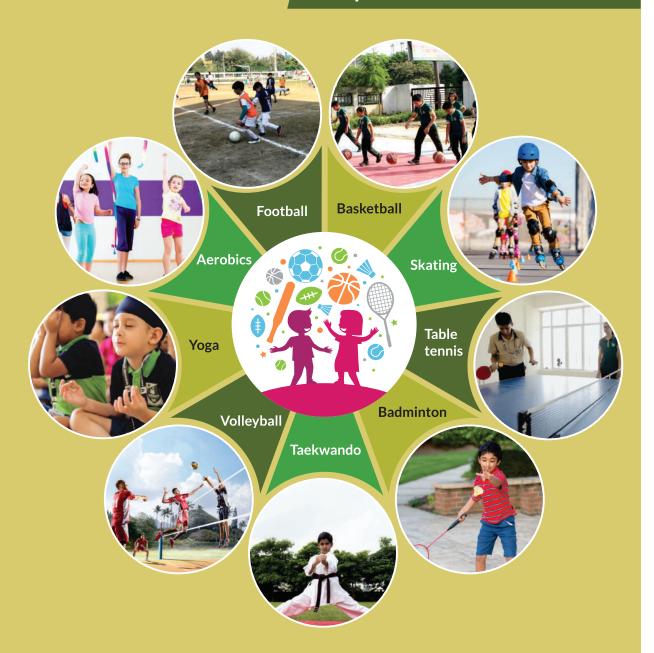

We have an in-house school cafeteria, wherein healthy snacks and lunch is provided to students on an optional basis. School menu is designed to be suitable for most students and healthy cafeteria for senior and junior wing gives them comfort and hygienic space to enjoy their healthy food.

Sports and Fitness

A Healthy
Mind Resides in a
Healthy Body

At Sheoran, we offer wide range of Sports, Games and Physical Fitness programmes:

Emerging School Of The Year (Regional)-2019:

Principal Of The Year-2019:

Ms Aparna Sharma, Honorable Principal - **Sheoran International School** was awarded the Principal of the year award 2019 for being the parents and child-centric principal and adopting an open door policy to cater to students in a better way and instilling positive discipline among students.

Rex Karmaveer Award

Rex Karmaveer Global Education Change Champions Torchbearer School Award 2019 was awarded to **Sheoran International School**, Greater Noida.

The REX-Karmaveer Education Change Champion (ECC Award), is bestowed on schools that promote holistic, character-rooted education to make children better human-beings, better-citizens, better-leaders.

The Rex Karmaveer Global Education Change Champions Fellowship Award 2019 distribution ceremony was organized on 15th April 2019 at Delhi Public School, Gurugram and the award was received by Shri Uday Veer Singh, Chairman, Sheoran International School, Greater Noida.

Powered by REX Karmaveer Global Fellowship and Karmaveer Chakra Awards instituted by International Confederation of NGO (iCONGO) in partnership with United Nations, these awards are truly By, Of and For Educationalists and a tribute to the People President and Life Teacher Dr. APJ Abdul Kalam, who had offered to be the ambassador for the awards and International Volunteering Olympiad.

Mr. Manoranjan Pratap Singh

No words can describe how thankful I and my wife to have Harshit be part of the family of **Sheoran International School**, under the qualified teacher along with educational programs you have. The teachers are so helpful, full of support and encouragement also bring the confidence in the class. What a year for Harshit and especially for us parents knowing Harshit is in a very good environment that always keeps him motivated to come to school and achieve his best. Thank you very much for your leadership and I trust Sheoran International will more get recognize as one of the best education providers in NCR region.

Mr. Annamalai S

I appreciate all your efforts and your innovative ideas which helped draw the children's attention and made their learning more enjoyable. The teachers are been so patient and friendly with all the children and this has clearly helped to boost their confidence levels.

As a working parent we often find it difficult to make time for our children. But, Education program at **Sheoran International School** keeps children well-connected with their learning goals. I would also like to take this opportunity to say thanks the management for the personal care they are showing in pickup, drop the children, day care facility after school hours, children attendance care.

We personally thank Ms. Sandhya for her care and support for my child as we are relocated from South India we didn't feel we are not apart from our place by providing such warm welcoming environment here at **Sheoran International school**.

I really need to mention the cleanliness and pleasant environment they maintain in School. Its very clear that **Sheoran International school** is one among the most undoubtfully recommendable school around Greater Noida.

Mr. Farooq Mir

Just a small note of appreciation of thanks for being such wonderfully supportive leaders and teachers. We as parents are all truly grateful for the support and genuine feedback that you gave us over the past 2+ years, which has helped us and the kids and a lot of improvements can be seen in their academics as well. Also, I and thankful to you for adding new innovative ways of learning through curriculum and sports activities related to topics. Your willingness to be ever ready to make learning a beautiful journey for children and extend your support wherever and whenever necessary is much appreciated. You are a wonderful example of a true leader and teacher. So, once again a big thank you for your unwavering support and care for the children.

Mrs. Sushma Kour

Our daughter Sukriti, joined **Sheoran International School** in Class 1 at the age of five, in the year 2021. The difficult times which the World was grappling with. Every parent has their own apprehensions when sending a young one to a new place such as a school, however, with COVID, these were multifold.

We had lot of questions on how, our daughter would cope with online classes, how the teachers would interact with new students, what would be the quality of teaching, apart from the million questions which each parent has. To our delight, we were pleasantly surprised on how within a week, our daughter was enjoying her classes, and eager to open her new application to start her day.

The online "Next Learning Platform" made this journey comfortable, with an easy to use interface, even for a young child, from joining online classes, too submitting homework, doing revision with offline videos or appearing for examination, every step worked like a charm.

No matter how good school infrastructure is, all is in vain, if there are no quality educators; however, with **SHEORAN**, it seems a perfect balance of both. The teaching staff is not only apt for their job, they are polite and patience, which children need. This makes our belief strong, that we made the right choice, when we decided to have our daughter join **SHEORAN**.

We wish success to the entire team of **Sheoran International School**, for their endeavor and would like to recommend other parents to have their children be part of this lovely family.

Regards,

SHEORAN INTERNATIONAL SCHOOL TRANSPORT

Our transport fleet consists of comfortable, air-conditioned buses to pick up and drop students. Only experienced and qualified drivers are appointed after undergoing a driving test to ensure safety of our students.
