Minds are like parachutes; they only function when open.

PLAY

We develop path-breaking play-based pedagogies grounded in research on cognitive developmental psychology. We guide and mentor the students to be independent thinkers and problem-solvers by providing a playful environment for learning.

LEARN

We provide an enriching learning experience by amalgamating indoor and outdoor activities. The latest pedagogy and technology cater to multiple intelligences.

INNOVATE

We offer the right environment for innovation and support the students to bring their ideas to fruition.

EXPERIENCE

At Sheoran, they will experience the joys of learning which will transform them into confident individuals with a positive attitude.

We believe

Every child is unique.

A beautiful little gem

Waiting to shine like a diamond in the sky,

Beaming with confidence and might

To make a positive difference in the world,

A powerhouse of talent

Ready to set an example for others to follow;

Full of passion and countless dreams,

Daring to accomplish the impossible.

VISION

Our vision is to develop passion in our students to learn the basic concepts of all subjects through activities and practical experience and develop higher order thinking skills.

We aspire to be one of the premier educational institutions in the country by broadening our dimensions, implementing inclusive education.

Our aim is to mould the students into well-integrated personalities equipped with the life skills necessary to take up future challenges.

MISSION

Sheoran International School aims to develop each student into a global citizen. The school is committed to imparting quality education that would transform them into independent, compassionate and sensitive individuals possessing strong values and respect towards all cultures.

PLAY • LEARN • INNOVATE • EXPERIENCE

ABOUT US

SHEORAN INTERNATIONAL SCHOOL AN INITIATIVE BY JYOTI EDUCATIONAL SOCIETY

Jyoti Educational Society was founded in 2008 with the intent to provide education in rural areas and help kids aspiring to pursue education.

Sheoran International School was founded under the aegis of Jyoti Educational Society with an aim to make learning fun by embracing the unconventional way i.e. Play, Learn, Innovate and Experience.

A good school is where students can study in a stress-free environment and enjoy the freedom to ask thought-provoking questions.

Our motive at Sheoran is to generate curiosity among students, allow them to commit mistakes and then learn, favouring personalised learning over differentiated learning, thus eliciting the best in each child and making them lifelong learners, bubbling with self-confidence, with an intrinsic potential for global leadership.

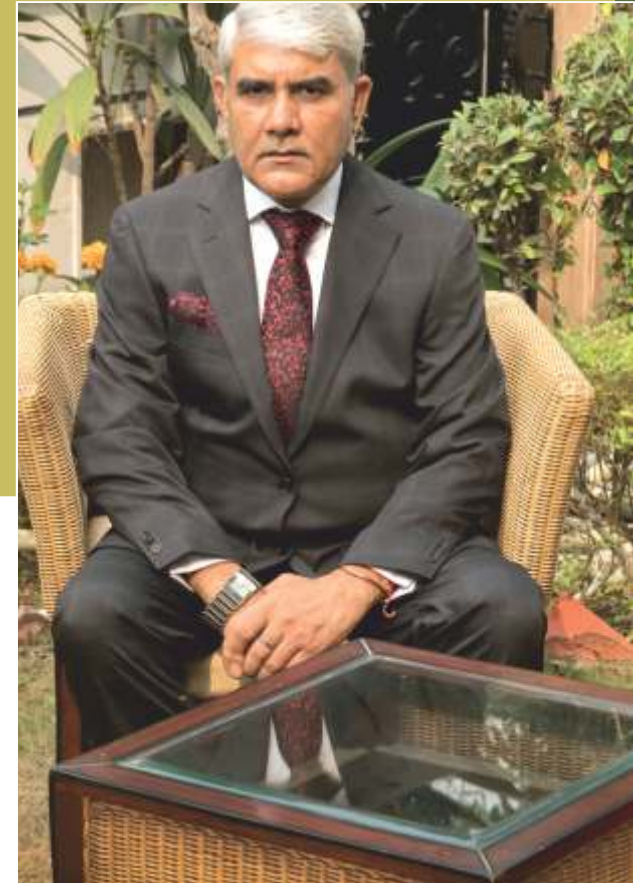

“ Nurturing Bright Beginners for a Brighter Future. ”

CHAIRMAN'S MESSAGE

Uday Veer Singh
(Chairman Jyoti Educational Society)

We at Sheoran International School focus on total upliftment with adequate use of educational technologies, keeping in mind the motto "Service to the Nation First". Our experience in education promises to provide a joyous experience of learning where children excel and explore freely and independently in a stress-free environment. Sheoran International School shall burgeon into a multidisciplinary institution, offering various facilities to the students and parents to impart diverse skills, in tune with the requirements of the modern world.

Inclusive education has grown from the belief that education is a basic human right. All learners have a right to education, regardless of their individual characteristics or difficulties. Inclusive education initiatives often have a particular focus on those groups which, in the past, have been excluded from educational opportunities. Inclusive education is not only concerned with differently abled students, or with finding an alternative to segregated

special schooling. Inclusive education encourages policy makers and managers to look at the barriers within the education system, how they arise and how they can be removed.

Best wishes from school management team

EXECUTIVE DIRECTOR'S MESSAGE

Sushant Chaudhary

(Executive Director, Sheoran International School)

Greetings from Sheoran International School!

I take pleasure in welcoming you to Sheoran International School (SIS), a school committed to delivering quality education.

Right from its inception, Sheoran International School has striven to be reckoned as an institution of excellence in the NCR and a preferred destination for learning.

The infrastructure has been developed with the most modern equipment and designs. Provisions have also been made to upgrade the same to keep pace with the technological advancements.

The curriculum is structured to help develop students into responsible, global citizens, in a value-based environment. To facilitate this, our faculty ensures that quality teaching is imparted to the students.

As a parent, you can rest assured that the time spent in the school will be an enriching and fruitful experience for your child.

A photograph of the Sheoran International School building. The building is white with a large sign that reads "SHEORAN INTERNATIONAL S" in green letters. Above the sign is a logo featuring a swan and the word "SHEORAN". The sky is blue with some clouds.

SHEORAN
INTERNATIONAL S

Every learner in Sheoran International School

Is nurtured through a holistic curriculum that helps develop a child to face the challenges of the future

Inculcates problem-solving and decision-making skills in an environment of self/group learning that is in tune with the 21st century

Actively participates in all the events and activities of the school

Receives equal opportunity to develop their full potential academically, socially and emotionally

FROM THE DESK OF

Beas Dev Ralhan,

Co-founder & Chief Executive Officer,
Next Education India Pvt. Ltd.

The vision of Next Education is to make quality education accessible to all learners across the country and equip them with essential 21st-century skills. We believe that this vision can be achieved only with the intervention of technology, specifically, technology-enabled educational products and solutions, that will effectively address the challenges prevailing in the current education scenario.

We feel honoured to partner with Sheoran International School to deliver the promise of nurturing and mentoring the young generation of the country. Through our technology-driven curriculum, we aim to ensure the holistic development of learners, which includes not just core academics but also important life skills.

With our technology-enabled curriculum, we are sure that Sheoran International School will set new standards in delivering quality education and effective instruction to its students, inspiring curiosity, imagination and creativity.

Anand Ramaswami

Vice President, Academics

Next Education India Pvt. Ltd.

The future is full of challenges and equipping the young generation with 21st-century skills is the need of the hour. As an education solutions provider, we have made use of the best technology and the best minds in academia to develop a holistic curriculum that prepares students for the challenges of tomorrow's world.

This is the reason why the scope of Next Education's learning solutions transcends academics and focuses on essential 21st-century skills such as creativity, critical thinking, communication and collaboration. These skills are required for a learner to succeed in the competitive world that awaits him.

Our curriculum does away with rote learning and emphasises on making the child think, evaluate, reason, learn, assimilate and apply the knowledge they gain.

ABOUT THE SCHOOL

Sheoran International School is a co-educational institution conveniently located in Pocket-2, Omega-1, Greater Noida and is spread over acres with sprawling lawns.

The design of the building has been inspired by the Louvre Museum in Paris. Spacious classrooms and open space environs offer an ambience which is conducive to intellectual pursuits and holistic development.

Challenging the traditional way of learning, the institution promotes activities conducive for developing the overall personality of a child. Moreover, the natural surroundings of the school helps broaden the horizon of the child. The school has classrooms fitted with ACs and audio-visual aids. Besides, the school has well-equipped science laboratories, computer labs, a library and a cultural centre.

Sheoran International School is located in a pristine environment with state-of-the-art infrastructure that provides children with the best of learning environments. With a learner-centric curriculum and technology-enabled learning, we aim to provide the best education to your child.

To realise our vision and execute our mission, we have with us our academic partner, **Next Education India Pvt Ltd.**

NEIPL is a pioneer in the field of education, having partnered with 12,000 schools across India. NextCurriculum has a range of educational aids and tools which make learning enjoyable for children.

It is our sincere endeavour to take our academy to great heights and this can be achieved only with your support and good wishes.

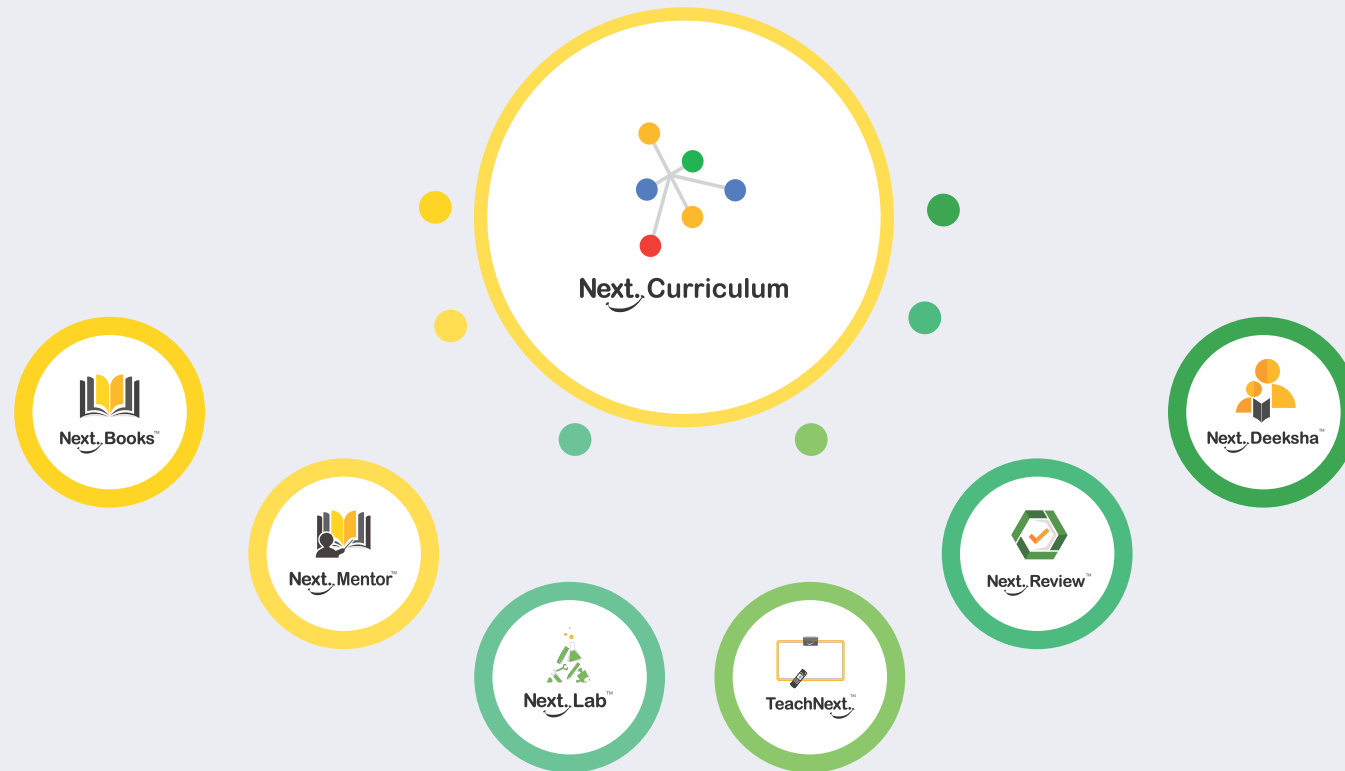

CURRICULUM

Sheoran International School's curriculum is powered by cutting-edge solutions from Next Education.

NEXTCURRICULUM COMPONENTS

To address the challenges of the 21st-century, Next Education has developed a whole range of comprehensive curriculum solutions with seamless integration of stellar audio-visuals, hands-on activities, simulations, lesson plans, assessments and more.

NextCurriculum comprises textbooks, hands-on learning tools such as Labs, TeachNext, which is our pioneering digital classroom solution, various types of assessment tools, mentor manuals for teachers to help them with lesson plans and instructions and more. Additionally, Next Education also provides teachers with year-round training to enhance their skills and methods of utilising the products and solutions of Next Education.

MEET Next Curriculum™ at Sheoran International School

A complete curriculum solution for a holistic personality development.

TeachNext™

An award-winning digital classroom solution

Every classroom at Sheoran International School is equipped with TeachNext, a state-of-the-art digital classroom solution. This ground-breaking audio-visual solution is replete with real-life scenarios and age-appropriate themes, enhancing students' learning process.

- 2,500+ hours of audio-visual content to enhance classroom experience
- 500+ integrated tools and simulations
- 200,000+ questions in Question Bank
- Interactive assessments
- Virtual Labs within the classroom

 **Next Books™**

A complete curriculum solution for a holistic, well-rounded and grounded learning

- Integrated curriculum identifies concepts across different subjects
- Suits different learning styles and multiple intelligences
- Thematic learning uses easy-to-identify and relatable scenarios
- High-quality graphics for optimum learning experience

LearnNext.™
The next way to Learn

LearnNext - The most advanced
self-learning solution for in-depth learning

- Available for grades 6 to 12 of CBSE, ICSE and various state boards
- Audio-visual explanations, live assessments, doubt clarification within 12 hours by subject experts

An intuitive school-management software to help it function effectively

- A stable cloud-based platform
- Mobile app for on-the-go access
- Robust 3rd party integration
- Complete security and privacy controls

EXTRA CURRICULAR ACTIVITIES

"It is a miracle that curiosity survives formal education."

- Albert Einstein

Learning beyond classroom

At Sheoran, we believe that learning should not be limited to books or only to a classroom. For holistic development of learners, it is important that they interact and build a rapport with their peers and learn important social skills. Participating in various games, competitions and events enhances collaborative and cognitive skills of students.

The vast range of extracurricular activities at Sheoran International School offers students an opportunity to form relationships, foster learning and encourage self-development. We teach our students the following important skills:

- Time management and prioritisation
- Setting goals
- Exploring diverse interests
- Building self-esteem
- Contributing to the community
- Working collaboratively

LIBRARY

“Libraries allow children to ask questions about the world and find the answers. And the wonderful thing is that once a child learns to use a library, the doors to learning are always open.” - Laura Bush

Libraries in school are established with the idea of providing learning opportunities for both large and small groups of learners. These sets of learners focus on intellectual content. The school ensures that all members of the school community have equal access to books and reading, to information and information technology.

At Sheoran International School, the school library is a collaborative venture in which the library staff, teachers, and administrators work together to provide students with opportunities for their social, cultural, and educational growth.

LABS AT SHEORAN INTERNATIONAL SCHOOL

Science involves kinesthetic learning and teaching. In order to understand its concepts, students must look beyond conventional classroom teaching and learning from books. At Sheoran International School, the most modern labs ensure that the kids actually observe the process and understand the relationship between

action and reaction, using hands on learning methods to apply the knowledge they have attained in the classroom. Anatomy models, Physics and Chemistry kits, for instance, make it easy to understand the otherwise complex theories of science.

“I hear and I forget. I see and I remember. I do and I understand.” - Confucius

“Learning a Language is to Understand Others; to Form Connections.” - Anonymous

In the technology-saturated world that we live in, it is extremely important to prepare students with technological skills. This is possible only when we impart the necessary technological knowledge and skills to them so that they can understand and thrive in a world where technology is ubiquitous.

Teaching robotics is one of the most effective ways to inculcate innovative thinking in young children. It is considered one of the most important subjects in the 21st-century.

Robotics is also an entry point to learn coding, which is one of the most sought-after skills of the 21st century. In today's education, knowledge of technology is essential and should be an important part of the curriculum. Understanding this paradigm, Next Education has developed a comprehensive RoboticsLab that goes beyond the basics of Robotics, opening the door to a world of exciting opportunities.

How does RoboticsLab help students?

RoboticsLab comprises more than 150 quality parts and components and is designed to help students fine-tune their engineering and programming skills. It also helps develop a learner's logical thinking skills.

The visual programming interface allows learners to transform their algorithm to a program without worrying about syntax. It not only integrates Science, Technology, Engineering and Maths (STEM) concepts but also sharpens 21st-century skills such as creativity, critical thinking, communication and collaboration.

Students can build an infinite number of robots as different parts can be combined in multiple ways. This fosters coordination, problem solving and creativity.

COMPUTER LAB

Technology and education today go hand in hand, and this makes it easier for students and teachers to stay updated. This helps teachers improve their teaching and lesson planning skills too. The well-equipped modern computer lab at Sheoran International School aims at making the learning process a lot more

simple and efficient, giving students access to tools and methods of communication unavailable offline. This helps the students be more involved in their lessons and work. Teaching students to be technologically advanced helps them prepare for any number of possible careers.

"Man is still the most extraordinary computer of all." - John F. Kennedy

Learning English the Easy Way!

Today, English is the language that is predominantly used in business, media, art and academics. Hence, it is very important to understand and assimilate the English language as a medium of communication.

English language skills are indispensable for professional success, so it is critical not only to achieve communicative proficiency but also to learn to think in English. To address the challenges faced by students in learning English, Next Education has developed the EnglishLab, keeping the Indian learner in mind.

How Does EnglishLab Help Students?

EnglishLab caters to different needs of each learner, helping them improve in areas where they require support. It turns learning the language into a fun-filled experience with interesting games, helping students acquire skills and knowledge.

The Lab comprises a whole gamut of literary genres such as fiction, non-fiction and poetry, helping learners with practical usage. With a built-in dictionary, pronunciation tool, phonetic tutor and writing tutor, the Lab empowers students to attain mastery over the English language.

“Learning a language is to understand others; to form connections.” - Anonymous

Discover, Experience, Explore

Science education today usually does not focus on practical application, but instead, relies heavily only on theoretical instruction, expecting students to remember concepts word by word. In order to thrive in the competitive and tech-savvy world, we need a science education that is based on a practice-based approach.

We need to remember that without practical application, science education is mostly redundant. To address this challenge, Next Education has developed the ScienceLab that aids scientific thinking in students, covering concepts of Physics, Chemistry, Biology and EVS.

How will ScienceLab help students?

ScienceLab follows a four-stage experiential learning cycle and helps in understanding abstract concepts and applying them to real-life situations. With the hands-on approach of ScienceLab, students develop critical-thinking skills and learn faster and better.

ScienceLab has a great combination of activities and simulations that stimulate scientific curiosity in students. The NCERT-prescribed experiments conducted step-wise in a virtual setup help students explore different aspects of a topic. ScienceLab also contains computer-based activities with which students can reinforce the concepts learnt in class and relate them to their daily lives.

SCIENCE LAB

MathsLab™

Mathematics is an important subject, not just in school but throughout life. The abstract nature of mathematical concepts makes it difficult for students to relate to it or understand it.

Rote learning will definitely not help students in learning this subject. Moreover, expectations from parents and the inability to cope with the pace of instruction in class often generates stress in students.

For mathematical education to be effective, we need a method of instruction that is based on real-life scenarios with scope for practical application. It needs to have an interdisciplinary and hands-on approach to be more effective.

MathsLab addresses all these challenges and the modules are designed in such a way that it removes the fear of mathematics in students.

How does MathsLab help students?

The whole objective of MathsLab is to remove the fear of maths from students. With 200+ real-life scenarios and 1000+ story-based activities, students can easily understand complex mathematical concepts. With 200+ hands-on and paper-cutting activities, and 40+ hands-on manipulatives and digital video content, it makes the subject easy to understand.

MathsLab takes a gamified approach which introduces the fun element, boosting student motivation. An adaptive method is also employed in MathsLab, allowing students to progress across different levels of difficulty at their own pace.

Next Makerspace

Developing life skills is a crucial part of a child's education. Therefore, we have always striven to develop 21st century skills in our students. Now, we are bouncing to the next level by introducing the Next Makerspace Curriculum.

Being the first school maker curriculum in India, Next Makerspace is an ideal one-stop solution that would enable students to develop and master the 21st century skills. The learning outcomes of this curriculum are exact: the knowledge, skills and processes are developmentally appropriate, yet it is suitable to the makerspace philosophy of an open-ended learning.

Here, students would bring to life their creative solutions to defined problems by using the modern technology like 3D printing, in addition to the traditional art and craft skills. In this process, students would be able to imbibe the design-thinking process of problem solving, while expressing creativity in a tangible/real form. Furthermore, this would provide them a platform to communicate their ideas with their peers and collaborate with a diverse set of people.

MAKER SPACE LAB

ISO

Recognizing the importance of quality education for all, ISO has developed ISO 21001, the first-ever management system standard on education.

It is aimed at improving the processes and quality of educational institutions to address the needs and expectations of those who use their services.

On 30th March, 2019, Sheoran International School became the 2nd school in India to be certified with ISO 21001: 2018 by the National Accreditation Board for Education and Training (NABET), Govt. of India.

The implementation of the ISO 21001 at Sheoran International School has resulted in the following benefits:

- Better alignment of educational mission, vision, objectives and action plans
- Inclusive and equitable quality education for all
- Promotion of self-learning and lifelong learning opportunities
- More personalized learning and effective response to special educational needs
- Consistent processes and evaluation tools to demonstrate and increase effectiveness and efficiency

Rex Karmaveer Award

Rex Karmaveer Global Education Change Champions Torchbearer School Award 2019 was awarded to Sheoran International School, Greater Noida.

The REX-Karmaveer Education Change Champion (ECC Award), is bestowed on schools that promote holistic, character-rooted education to make children better human-beings, better-citizens, better-leaders.

The Rex Karmaveer Global Education Change Champions Fellowship Award 2019 distribution ceremony was organized on 15th April 2019 at Delhi Public School, Gurugram and the award was received by Shri Uday Veer Singh, Chairman, Sheoran International School, Greater Noida.

Powered by REX Karmaveer Global Fellowship and Karmaveer Chakra Awards instituted by International Confederation of NGO (iCONGO) in partnership with United Nations, these awards are truly By, Of and For Educationalists and a tribute to the People President and Life Teacher Dr. APJ Abdul Kalam, who had offered to be the ambassador for the awards and International Volunteering Olympiad.

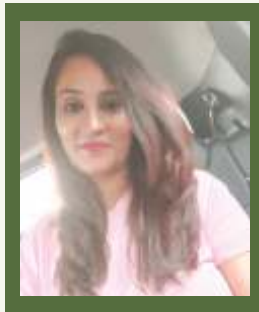

TESTIMONIES

Sheoran International School has been our partner in parenting and educating our children. The academics are exceptional with the collaboration of Next Education but the character development program is even better. The teachers and administrators are loving, caring, supportive and fully accessible. I would like to congratulate you all whole-heartedly for being truly a child centric, focused and friendly institution. Thank you for the tremendous efforts you put in for all the activities, be it parents connect program or the first annual day celebration. It's exactly the kind of training our kids would benefit from in the near future and it would be an important foundation of their lives.

Dr. Richa Sinha

Shipra Srivastava

Sheoran International School is a fantastic school. The teachers are professional, caring and well organized. My daughter is always happy to go to school and full of smiles when we pick her up. They provide practical and activity based learning, which a child is able to understand easily. I shall always be grateful to this wonderful school.

Hello everyone!! My child is studying at Sheoran International School and I am very happy with the kind of academics they are providing to the kids. My child is very happy to go to school and overall its a very familial experience. I am a very happy parent.

All the best to the entire team.

Dr. Namrata

TESTIMONIES

Greetings to all !!

My kid has been going to Sheoran International School from the time she was a toddler with no experience of the world. As a parent, I am very satisfied and happy to share the experience of my kid's development in this one year and the credit goes to all the teachers and staff of Sheoran International School. Not only is my kid learning what is there in the book but also the basic human behaviour like helping others, sharing, caring, discipline, efficient communication, moral values etc. In other words, this school provides the overall development of a kid as a human being. They really are creating the future generation. Happy to be a part of this family and I wish all the very best to the school and all the members.

Dr. Sushmita jha

Hello everyone !!

As parents, we feel proud that our children, Satakshi (Grade 2) and Rudransh Chauhan (Grade KG) are a part of Sheoran International School.

Sheoran International School is like a breath of fresh air in the education environment today. The curriculum is full of experiential learning including the audio-visual teaching aids.

The teachers and staff members are well qualified and courteous. We appreciate the efforts of teachers and principal.

We are also grateful for each and every program they celebrate in the school.

The teachers love the children so much that the children wish to go to school daily. The education system of the school ensures all round development of the child.

The open and supportive environment of the school helps them to excel in academics as well as in the areas of their interests like art and sports. We are very happy with the school.

Thank you!

Anil Kumar Chauhan

SPECIAL FEATURES

INCLUSIVE EDUCATION

The school is specially committed to children with special needs. We acknowledge every child's right to education and believe that studying in a school not only helps the intellectual development of the child but also helps him/her to develop their social and communication skills while nurturing their self-esteem and self-worth. It develops their social and communication skills, hones their abilities of interaction, and nurtures their self-esteem and self-worth. It enables students to participate in the life and work of mainstream institutions to the best of their abilities, irrespective of their special needs.

We look forward to include children with mild to moderate learning disabilities with or without associated /other difficulties. We are committed to providing a curriculum that is meaningful and purposeful and which will lead to their integration into society and the mainstream workforce.

The SEN Department assists students access the regular curriculum in separate settings. Students are supported through remediation or reinforcement classes, modification and adaptation of a regular curriculum and through partial integration leading to full integration wherever possible.

Further accommodations such as extra time and allotment of scribes are incorporated wherever necessary, keeping in mind the rules of the examination board.

The multi-disciplinary team of Special Educators, Speech & Language Pathologists, Occupational/Physiotherapists and Counselors/Family Therapists works closely with the mainstream teaching faculty. It also draws on the experience of visiting professionals such as Child Psychologists & Child and Adolescent Psychiatrists.

Special attention is given to the children in the areas of Physical Education, Art & Craft, Computers and Performing Arts. Emphasis is also given to areas of Language & Communication Skills, Social Skills, Life Skills and Robotics.

Recognising the fact that all children have different strengths and abilities, we aim to provide a diverse and dynamic curriculum to help each child achieve his /her potential.

SHEORAN INTERNATIONAL SCHOOL TRANSPORT

Our transport fleet consists of comfortable, air-conditioned buses to pick up and drop students. Only experienced and qualified drivers are appointed after undergoing a driving test to ensure safety of our students.

"At the end of the day, the goals are simple: safety and security." - Jodi Rell
